1.4. Co-organizers of the Competition:

Universities-organizers of foreign and regional EEFM sites that have chosen this competition for implementation on their sites. The list of foreign and regional sites that have chosen this Competition is indicated on the Competition page of the Congress of Innovators of the EEFM website, as well as on the foreign/regional Sites of the EEFM website themselves.

1.5. The purpose of the Competition is to promote the implementation of creative initiatives of young professionals in the field of business intelligence and information security.

1.6. Tasks:

- Identification of talented youth and determination of further prospects for their further development;
- Involvement of youth in the process of data analysis in the field of business and information security;
- Analysis of positive and negative factors in the analysis of data in the field of business and information security;
- Familiarization of young professionals with modern data analysis tools provided by SAP.

## 2. Subject of the Competition

The subject of competitive evaluation are the results of business analysis conducted within the allotted time of the Competition by the participant and performed using a cloud service Yandex Cloud.

## 3. Terms of participation in the Competition

3.1. Students of all forms of education, graduate students, scientists of educational organizations, academic institutions and other interested organizations in Russia, foreign countries under the age of 35 (hereinafter referred to as Participants) are allowed to participate in the Competition.

3.2. Works within the framework of the Competition are performed individually.

3.3. Each participant must register on the official website of the EEYF.

3.4. There is no registration fee. Expenses for accommodation of non-resident participants, food and transportation costs for participation in the full-time stage of the Competition are paid independently by the participants or organizations.

## 4. Stages and terms of the Competition

4.1. The Competition is an annual event. The final dates for the Competition, as well as its main stages, are established by the order of the rector of the Ural State University of Economics.

4.2. The Competition is held in two stages.

	<b>REGULATIONS</b> <b>Concerning International Championship for the Application of Technologies</b> <b>in business analytics and information security «Competition: analytics and information security»</b>	1 <sup>th</sup> Edition
		Pg. 3 of 8

4.2.1. The first stage is the acceptance and registration of applications for participation in the Competition.

The first stage is carried out within the time frame set by the Directorate of the Eurasian Economic Youth Forum. Lists of participants in the second (full-time) round are posted on the Competition page of the EEYF website.

4.2.2. The second stage - (in-person), consists in analyzing the data provided by the organizers in the Yandex Cloud cloud service, determining the winners and prize-winners.

Participation in the competition for participants of foreign/regional Competition sites is also possible with the use of remote technologies – registered participants simultaneously get access to Yandex Cloud cloud resources.

## 5. Requirements for registration of participants

5.1. At the first stage of the Competition, participants submit an application for participation in the Competition in electronic form through the registration form of the EEYF website [www.eurasia-forum.ru](http://www.eurasia-forum.ru).

Participant's application (Appendix 1) - submitted by filling out the registration form on the EEYF website by each participant.

5.2. The application (registration) of participants is submitted within the time period specified on the EEYF website.

## 6. The procedure for holding the Competition and the criteria for evaluating works

6.1. To prepare for the Competition, participants need to study the guidelines for mastering the main tools of the Yandex Cloud cloud service. To develop the skills of working with the toolkit, it is proposed to solve a test task. The procedure for registering with the Yandex Cloud service is described in the Guidelines.

Methodical instructions and the test task are located in the Documents section on the Competition page of the EEYF website.

For successful and high-quality development of competencies, it is necessary to complete all the tasks from the guidelines before the start of the competition.

6.2. During the first stage, the organizing committee evaluates the applications of the participants for compliance with the requirements.

6.3. During the second (in-person) stage of the Competition, immediately before the start of the competition on April 26, 2023 at 10:30, the tasks will be posted on the website as a link to Google Drive.

The expert commission of the competition evaluates the final work of the contestants — the results of the analysis according to the following criteria:

- practical feasibility and completeness of the solution — 30 points;
- creative implementation (design) — 30 points;
- originality of thinking — 20 points;
- solution presentation — 20 points.

6.4. The expert committee makes a decision based on the total points.

6.5. In the event that the winners and prize-winners of the Competition have the same number of points, the decision to determine the winners and prize-winners remains with the expert commission of the Competition.

6.6. The expert commission has the right to mark individual participants with special nominations.
